

Make an impact.

Code4life

Have you ever wondered what we could achieve if we bring together the best expertise in molecular biology, modern diagnostics and smart analytics? How might patients' lives be changed for the better?

Let yourself be inspired by Lisa's story:

Or go directly to: go.roche.com/lisas_story

At Roche Diagnostics in Rotkreuz our heart beats for innovative solutions that improve healthcare for patients. We are the largest manufacturer of fully automated in vitro diagnostic systems in Switzerland. As the main location for the Diagnostics Division, we invest in research and development for new tests and systems for the rapid and reliable diagnosis of disease.

Explore your future career in Personalised Healthcare at Roche through one of our internships or trainee programmes.

The next step is yours.
